The chief traits of the University's modus operandi include consistently driving academic innovation and research; transforming the sphere of education for a prismatic future consolidation of academic learning; inculcating the highest ethical standards in our talented students and honouring the canonical legacy of legal systems while contributing proactively towards its timely metamorphosis.

Our teaching pedagogy intermixes convention with innovation- with each teacher having the liberty to chart the academic trajectory of the paper administered and training scholars to analyze and rationalize, to critique and reform, to examine the micro as well as macro aspects of a problem, to argue fluidly and pen fluently, using cutting edge technology and access to some of the most fecund global legal databases. As a concomitant and outcome of the diverse learning exposure given to them, our alumni today constitute the crème de la crème of the Bar and the Bench, hold positions of eminence in national and international law firms and massive global conglomerates, vocalize people's rights as zealous advocates while sensitizing the population by guaranteeing pro bono legal assistance, passionately advocate for environmental protection and against carbon footprints while discussing the nitty-gritty of IP regimes and international trade agreements with a consistent concern throughout for the future welfare of the globe.

Our graduates, at the zenith of their skills and acumen after vigorous years of training, are sought after by top global law firms and have attained leadership roles at eminent social justice organizations, law firms, NGOs, governmental entities and academic institutions.
